DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 75 and 76 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 75 is indefinite because the process limitation "is operated ..." does not further limit the plant structurally .

Claim 76 is indefinite because the expression "pre-leaching stage" relates to a process which does not further limit the plant structurally.

Allowable Subject Matter

Claims 48 to 74 are allowed.

Claims 75 and 76 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

The following is an examiner's statement of reasons for allowance: The references of record and particularly the patent to Whellock et al (US 5,021,069) which discloses a method of effecting a bioreaction to recover copper but does not disclose a method which includes the steps of subjecting a slurry to the claimed temperature, supplying a feed containing the claimed oxygen and controlling the dissolved oxygen concentration as claimed.
